Pursuant to 37 C.F.R. §§ 1.56, 1.97 and 1.98, applicants bring two-hundred and eighty-six documents listed on the enclosed thirteen-page form PTO-1449 to the attention of the Examiner in the above-identified application. Copies of the two-hundred and ten U.S. Patent documents are not enclosed. Copies of thirteen non-U.S. Patent reference documents (nos. 211-213, 235, 239, 251, 260-264, 266, and 283) listed on the enclosed sixteen-page form PTO-1449 are not submitted because they were submitted in an earlier application (09/067,544), now U.S. Patent No. 6,226,680, issued May 1, 2001, which is relied upon for an earlier filing date under 35 U.S.C. §120. Copies of eleven non-U.S. Patent reference documents (nos. 273-282, and 284) listed on the enclosed sixteen-page form PTO-1449 are not submitted because they are shown in the Image File Wrapper portion of PAIR for this application.

The documents listed on the enclosed thirteen-page form PTO-1449 were previously submitted in the above-identified application, as eleven separate Information Disclosure Statements per 37 C.F.R. §1.98, along with their accompanying PTO-1449 forms; However, because several of the Information Disclosure Statements and accompanying PTO-1449 forms were not correctly placed in the application file after

being received by the U.S. Patent Office, the documents listed on the enclosed thirteen-page form PTO-1449 are now being resubmitted for the examiners convenience.

Citation of these documents shall not be construed as an admission that the documents are prior art with respect to the instant invention, a representation that a search has been made, or an admission that the information cited herein is, or is considered to be, material to patentability as defined in 37 C.F.R. § 1.56(b).

Respectfully submitted,
